TOWN CLERK'S REPORT

REPORT OF THE ANNUAL TOWN MEETING

Held March 6, 1965

At the annual business meeting held at the Joseph Osgood School at 2:00 o'clock P.M., the following articles were contained in the Warrant and acted upon as recorded.

Checkers previously appointed for entrance by the Selectmen and sworn in by Town Clerk Charles A. Marks at 1:15 P.M. were Margaret E. Buckley, Isabelle Ainslie, Catherine D. Noonan, Mary Fiori, Barbara Williams and Louise Ahearn.

Tellers appointed by the Moderator and sworn in by the Town Clerk at 2:00 P.M. were John L. Emery, Edward E. Tower, Frank E. Jason and Arthur Lehr, Jr.

The invocation was given by Rev. Joseph T. Brennan.

The total number of voters present as checked on the incoming voting lists was 565.

Article 1. Voted unanimously by a voice vote, that the Selectmen be and hereby are authorized and directed to appoint all Town Officers not required to be elected by ballot.

Article 2. Voted unanimously by a voice vote, that the reports of the various Town Officers as printed in the Annual Town Report for the year 1964 be and hereby are accepted.

Article 3. To hear the report of any committee heretofore chosen and act thereon.

FIRE AND POLICE HEADQUARTERS BUILDING COMMITTEE

The committee feels its work is now completed, requests its report be accepted and wishes to be discharged.

Voted unanimously by a voice vote, that the committee report be accepted and the committee be discharged with a vote of thanks.

TRANSPORTATION COMMITTEE

The committee reported that its work is completed and wishes to be discharged.

Voted unanimously by a voice vote, that the committee be discharged with a vote of thanks.

PUBLIC SEWERAGE SYSTEM STUDY COMMITTEE

The sewerage committee reported progress.

Voted unanimously by a voice vote, that the committee report be accepted and the committee be continued.

INCINERATOR COMMITTEE

The incinerator committee reported progress and wishes to continue.

Voted unanimously by a voice vote, that the committee report be accepted and the committee be continued.

AMMUNITION DEPOT PROPERTY COMMITTEE

The committee reported progress and committee to continue.

Voted unanimously by a voice vote, that the report of progress be accepted and the committee be continued.

AARON RIVER COMMITTEE

The committee reported progress, the committee be continued.

Voted unanimously by a voice vote, that the report of progress be accepted and the committee be continued.

Article 4. Voted unanimously by a voice vote, that the report and recommendations of the Personnel Committee with respect to amending the Personnel Classification By-Law Schedule be and hereby is accepted and said By-Law Schedule hereby amended by inserting, adopting and substituting the following schedule for the schedule heretofore

adopted and that section 26 of the Personnel Committee's By-Laws be and hereby is amended by striking out the word "90" where it appears and substituting in place thereof the word "120" so that the section shall read as follows:

No sick leave with pay shall be granted during the first three months of employment or to any part-time employee. After three months and up to one year of employment, any full-time employee absent because of his own sickness shall be entitled to sick leave with pay for time absent not in excess of five working days. After one year of employment, the period in any year for which employees shall be paid while absent because of personal sickness shall be fifteen working days in each calendar year. For each successive year of employment, the employee shall be entitled to paid sick leave for fifteen working days, cumulative to one hundred twenty working days. A doctor's certificate may be required to substantiate illness at the discretion of the department head.

Article 7. Voted unanimously by a voice vote, that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1965, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 8. Voted unanimously by a voice vote, that the sum of \$764.52 be and hereby is appropriated from available cash in the Treasury being the unexpended balance of the Dog Fund received from the County for dog licenses, in accordance with Chapter 140, Section 172 of the General Laws, to be expended for the support of the Public Schools.

Article 9. Voted unanimously by a voice vote, that there be and hereby is appropriated from available cash in the Treasury for the use of the Assessors in fixing the tax rate for the ensuing year, a sum not exceeding \$50,000.00 as the Assessors in their discretion may determine advisable.

Article 10. Voted unanimously by a voice vote, that the sum of \$4,000.00 be and hereby is appropriated from overlay surplus and the sum of \$16,000.00 be and hereby is appropriated from available cash in the treasury for the establishment of a reserve fund for the year 1965.

Article 11. Voted unanimously by a voice vote, that the sum of \$800.00 be and hereby is raised and appropriated for the purpose of maintaining during the ensuing year, the mosquito control works and improvement of low lands and swamps as estimated and certified to by the State Reclamation Board in accordance with the provisions of Chapter 112, Acts of 1931.

Article 12. Voted unanimously by a voice vote, that the Town of Cohasset, acting under the jurisdiction and provisions of Chapter 252 of the General Laws as amended, join in the South Shore Mosquito Control Project in conjunction with the City of Quincy, and other towns joining therein and that the sum of \$4,200.00 be and hereby is raised and appropriated for the purpose of paying Cohasset's share thereof, the funds to be paid to the Massachusetts Reclamation Board in the discretion of the Board of Selectmen if sufficient other municipalities join to justify such action.

Article 13. Voted unanimously by a voice vote, that the sum of \$820.00 be and hereby is raised and appropriated to be used with the balance of prior unexpended appropriations for the Town's proportionate cost for the control of insect, vegetable and animal life in Strait's Pond for 1965 as advised by the State Reclamation Board and as provided by Chapter 557 of the Acts of 1955 as amended.

Article 14. Voted unanimously by a voice vote, that this article be indefinitely postponed.

Article 15. Voted by a voice vote, that the sum of \$23,500.00 be and hereby is appropriated from available funds in the treasury for the dredging and improvement of Cohasset Harbor to be added to and held with the balance now on hand in the Harbor Dredging Fund, such funds to be expended at the discretion of the Selectmen in conjunction with funds which may be made available from the State and Federal Government.

Article 16. Voted unanimously by a voice vote, that the Town assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as amended by Chapter 5, Acts of 1955, for all damages that may be incurred by

work to be performed by the Department of Public Works of Massachusetts for the improvements, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tide-waters, foreshores, and shores along a public beach outside of Boston Harbor, including the Merrimack and Connecticut Rivers, in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the Commonwealth.

Article 17. Voted unanimously by a voice vote, that the sum of \$25,698.00 be and hereby is appropriated from available cash in the treasury for the use of the South Shore Regional School District for 1965 to pay Cohasset's share of assessment for the South Shore Regional School District.

Article 18. Voted unanimously by a voice vote, that the sum of \$1,460.00 be and hereby is raised from available cash in the treasury for library maintenance, this sum being received from the State Aid for Free Public Libraries in accordance with General Laws, Chapter 44, Section 53 and Chapter 78, Section 19A.

Article 19. Voted unanimously by a voice vote, that Article 4, Section 10 of the By-Laws of the Town of Cohasset be and hereby is amended by striking out Section 10 and inserting in place thereof the following:

"There shall be charged and the Board of Selectmen shall collect a fee, in accordance with the following schedule, for each permit issued as required by the Zoning By-Law."

Projects costing under \$ 1,000.	1.00 fee
Projects costing from 1,000. to \$ 5,000.	5.00
5,000. to 15,000.	15.00
15,000. to 25,000.	25.00
25,000. to 50,000.	50.00
50,000. and over	100.00

Article 20. Voted unanimously by a voice vote, that the provisions of Chapter 139 of the General Laws (ter. Ed.) Sections 1, 2 and 3 which Act authorizes the Selectmen to take action relative to burnt or dangerous buildings, be and hereby are accepted.

Article 21. Voted by a voice vote, that the sum of \$1,100. be and hereby is raised and appropriated to demolish and/or raze the building located at 280 Beechwood Street in accordance with General Laws (Ter. Ed.) Sections 1, 2 and 3; said money to be expended at the discretion of the Board of Selectmen after work to be done is put out for bids with the contract being awarded to the lowest responsible bidder.

Article 22. Voted by a voice vote, that the Moderator and the Board of Selectmen appoint a Committee consisting of the Chief of the Fire Department, a member of the Planning Board, a member of the Board of Selectmen, 2 citizens living in the Beechwood Section of Cohasset and 2 citizens living in North Cohasset to study the necessity, feasibility and/or possibility of relocating and/or possibility of relocating and/or consolidating the Beechwood Fire Station and the North Cohasset Fire Station and to report their findings to the Annual Town Meeting in 1966.

Article 23. Voted unanimously by a voice vote, that the sum of \$250.00 be and hereby is raised and appropriated for the installation of and furnishing of water service to a new and additional fire hydrant at or near the corner of Forest Avenue and Jerusalem Road.

Article 24. Voted unanimously by a voice vote, that the sum of \$250.00 be and hereby is raised and appropriated for the installation of and furnishing of water service to a new and additional fire hydrant at or near the end of the water main on Spindrift Lane.

Article 25. Voted unanimously by a voice vote, that the sum of \$6,000.00 be and hereby is raised and appropriated for the reconstruction, resurfacing and installation of necessary drainage from 455 Beechwood Street to the Corner of Beechwood Street and Doane Street and from said corner southerly on Doane Street for approximately 500 feet.

Article 26. Voted unanimously by a voice vote, that the sum of \$1,500.00 be and hereby is raised and appropriated for the reconstruction and resurfacing of existing sidewalks in need thereof.

Article 27. Voted unanimously by a voice vote, that the sum of \$6,000.00 be and hereby is raised and appropriated for the reconstruction, resurfacing and installation of necessary drainage on Cushing Road, James Lane, Spring Street and Smith Place.

Article 28. Voted unanimously by a voice vote, that the sum of \$6,000.00 be and hereby is appropriated for Maintenance of Highways under Chapter 90 of the General Laws and to meet said appropriation \$2,000.00 be and hereby is raised and appropriated to meet the Town's share thereof; to meet the State and County share thereof that the Treasurer, with the approval of the Board of Selectmen, be and hereby is authorized to borrow \$4,000.00 by temporary loan and to issue a note therefore in accordance with Section 6A, Chapter 44 of the General Laws in anticipation of reimbursement from the State and County of their share thereof.

Article 29. Voted unanimously by a voice vote, that the sum of \$16,000.00 be and hereby is appropriated for Chapter 90 Highway Construction for Forest Avenue, \$4,000.00 be and hereby is raised and appropriated to meet the Town's share thereof; to meet the State and County share thereof that the Treasurer, with approval of the Board of Selectmen, be and hereby is authorized to Borrow \$12,000.00 by temporary loan and to issue a note therefore in accordance with Section 6A, Chapter 44 of the General Laws in anticipation of reimbursement from the State and County of their share thereof.

Article 30. Voted by a hand vote, 294 yes and 1 no, that the sum of \$180,000.00 be and hereby is appropriated for the erection of a standpipe and laying and relaying of water mains of not less than six inches but less than sixteen inches in diameter, and for lining such mains with linings of not less than one-sixteenth of an inch: and to meet said appropriation, the Town Treasurer with approval of the Selectmen be and hereby is authorized to borrow said sum of \$180,000.00 and to issue bonds or notes or other evidence of indebtedness to be payable in not more than fifteen years from their dates or at such earlier dates as the Treasurer or Selectmen may determine.

Article 31. Voted unanimously by a voice vote, that the sum of \$9,050.00 be and hereby is appropriated from available water surplus to purchase a Tractor and Backhoe, a chemical feeder and a tapping machine.

Article 32. Voted unanimously by a voice vote, that the Board of Water Commissioners be and hereby is authorized to apply and borrow from the Housing and Finance Agency Community Facilities Administration of the United States Federal Government a sum not to exceed \$10,000.00 for the purpose of an advanced planning loan for public water facilities.

Article 33. To see if the Town will vote to raise and/or appropriate a sum of money to engage educational consultants, architects and engineers for immediate planning of additional school facilities and for the acquisition and planning of school sites, or act on anything relating thereto.

SCHOOL FACILITIES REPORT

Early in 1964 the School Committee requested that the School Facilities Committee investigate sites for additional building for the expected enrollments in our secondary section of our school system.

We started this study beginning with the request for an updating of the enrollment projections. These were prepared by the School Administration Staff. They were checked against the same type of a projection done in preparation of the so-called Benjamin report by "Educational Service Associates" School Consultants and finally by Mr. Domas, Administrator of the School Building Assistance Commission.

All of these studies we could expect between 800 or 850 in grades 7 through 12 by 1973 thus the need for additional facilities is established. The present school here is designed for 612.

At this point the Benjamin report is again examined and we find that the recommendation is that due to the small numbers expected in the grades 7 & 8 that additional land be added to the present High School site in order to provide facilities for grades 7 through 12 for the decade ahead and

point out further that this scheme affords the best educational advantages and economy in construction.

Mr. Domas offers the same advice.

The Educational Specifications prepared and submitted to the School Building Assistance Commission point up distinct Educational advantages to continue the Secondary School system as it is if possible. All that has been found to this point is that this Committee is duty bound in the best interest of the Education of our children and the citizens as a whole is to continue the study of the present High School site and the land around it for future school facilities development. In order to bring a study of this type to its final conclusion and make a firm recommendation it is necessary that funds be made available to engage the professional services of an architect and engineer.

If this motion we are about to make is voted the first phase of the Architects study known as preliminary plans will be presented to the School Committee and the Advisory Board and to any interested body in the Town before the second step in the motion covering working drawings is undertaken.

Harry H. Reed, Jr., Chairman
School Facilities Committee

Voted unanimously by a voice vote, that the report of this committee be accepted and the committee be continued.

Voted unanimously by a voice vote, that the sum of \$35,000.00 be and hereby is appropriated from available cash in the Treasury for the purpose of obtaining preliminary plans, detailed plans and specifications for additional school facilities to be located at the High School site adjacent to the existing school; and further that said School Facilities Committee be and hereby is authorized to act on behalf of the Town in all matters necessary or incidental to accomplishing the same.

Article 34. Voted, by a voice vote, that the sum of \$4,395.00 be and hereby is raised and appropriated for the purchase and installation of 484 seating capacity Steel Frame Portable Bleachers for Milliken-Bancroft Field.

Article 35. Voted by a voice vote, that the sum of \$400.00 be and hereby is raised and appropriated to extend and repair the boat launching ramp located at the northerly end of Parker Avenue by constructing a 30 feet asphalt extension to the lower end of the existing ramp with an additional 8 foot section running the entire length of the ramp on the southerly side and resurfacing the present existing ramp.

Article 36. Voted by a voice vote, that the sum of \$950.00 be and hereby is raised and appropriated for the construction of a new two section float to replace the existing float at the cove on Border Street and to relocate the present float at the Government Island pier.

Article 37. Voted by a hand vote yes 114 to no 100 that the sum of \$3,000.00 be and hereby is raised and appropriated for the construction and surfacing of a continuance of a sidewalk from 193 Sohler Street to Fair Oaks Lane.

Article 38. Moved, that the sum of \$6,060.00 be and hereby is appropriated and added to the budget of the Police Department to increase annual salaries of Patrolman, Sergeants and Chief of the Police Department in accordance with the following schedule:

Job Title	Pay Group	Min. Rate	1st Step	2nd Step	Max. Rate
Patrolman		\$5850.	\$6000.	\$6150.	\$6300.
Sergeant, Police Dept.		6375.	6550.	6725.	6900.
Police Chief		7490.	7760.	8030.	8300.

Moderator James called for a Ballot vote with the use of the check list.

The motion was defeated, Yes 135, No 410.

ELECTION OF MARCH 6, 1965

To cast and/or give in their votes upon the official ballot for the following officers:

Town Clerk for three years; One Selectman, Assessor and Member of the Board of Public Welfare for three years each; Tree Warden for three years; Two members of the School Committee for three years each; One member of the Board of Health for three years; Three Trustees of the Cohasset Free Public Library for three years each; One Member of the Planning Board for five years; One Water Commissioner for three years; One Water Commissioner for two years (to fill vacancy); One Member of the Recreation Commission for five years; and One Member of the South Shore Regional School Committee for one year (to fill vacancy).

And also to act on the following question:

QUESTION: 'Shall an act passed by the General Court in the year nineteen hundred and sixty-two, entitled 'An Act authorizing the Town of Cohasset to construct and operate a system or systems of sewerage and sewage disposal' be accepted?

The Polls were opened at 8:00 o'clock A.M. by Moderator Robert B. James. Proceeded to vote for Town Officers on the Official Ballot.

CHARLES A. MARKS, Town Clerk

TOWN CLERK'S REPORT

TOWN OF COHASSET

REPORT OF THE SPECIAL TOWN MEETING

Held November 9, 1965

At the Special Town Meeting held at the Joseph Osgood School at 8:00 P.M., the following articles were contained in the Warrant and acted upon as recorded.

Checkers previously appointed for entrance by the Selectmen and sworn in by Town Clerk Charles A. Marks at 7:15 P.M. were Margaret E. Buckley, Mary Isabelle Ainslie, Catherine D. Noonan, Mary Fiori, Barbara Williams and Margaret C. Hernan.

At 8:15 P.M. the Moderator ascertained from the Checkers that a quorum was present and the meeting was called to order. The Town Clerk proceeded to read the call of the meeting.

Tellers appointed by the Moderator and sworn in by the Town Clerk at 8:00 P.M. were John L. Emery, Edward E. Tower, Frank E. Jason and Arthur Lehr, Jr.

The invocation was given by Rev. Frank B. Chatterton.

The total number of voters present as checked on the incoming voting lists was 602.

Article 1. Moved, that the existing zoning by-law and zoning map of the Town be and they hereby are amended by deleting the same in their entirety and substituting therefor a new zoning by-law as set forth in the Warrant for the Special Town Meeting on November 9, 1965, and a new zoning map entitled "Zoning District Map of the Town of Cohasset, Massachusetts", dated October 1, 1965, enclosed with said Warrant, copies of which have been filed with the Town Clerk.

Mr. Leggatt reported favorably for the Advisory Board.

Moderator Robert B. James proceeded to go through the by-law section by section and any questions were answered by the proponents.

The Moderator then called for a hand vote.

Yes, 361; No, 186. A two thirds majority was necessary and the vote fell short by 3 votes.

A motion was made for reconsideration.

The yes and no vote was in doubt and the moderator called for a hand vote. Those in favor was Yes, 363, No, 182.

A discussion followed after which the Moderator called for a hand vote on the main motion.

Yes, 382; No, 213. The motion did not carry the two thirds vote necessary to pass.

Article 2. To see if the Town will vote to clarify Section 2D of the Zoning By-Law by adding thereto the following sentence:

"The demolition of a seasonal hotel and the reconstruction thereof as an apartment hotel for year-round occupancy shall be deemed to be a continuation of the previous use, provided that the height and bulk of the new building (including roofed porches, if any) shall not exceed the height and bulk of the old building (including roofed porches). "

TO THE CITIZENS OF COHASSET:

In accordance with Chapter 40A Section 6 of the General Laws, the Planning Board held a public hearing on the evening of November 4th, 1965, for the purpose of considering the amendment proposed to the Zoning By-Law under Article 2 of the Warrant for the Town Meeting of November 9, 1965, and further submits this report thereon.

Mr. Burnham, the sponsor of this article presented his views in favor and there followed favorable comments by several neighbors and others. When the opportunity came for those opposed to express themselves, two speakers had questions but did not speak against the proposed amendment. A show of hands indicated approximately 34 in favor and none opposed.

The Planning Board feels that as this proposed amendment can only apply to the area now covered by the Black Rock House, that here the proposed modern construction would not be unsightly, that the need for the proposed apartment hotel does exist, and that a substantial tax revenue without significant increases in municipal services would result, therefore the proposed amendment should be acted on favorably.

Respectfully submitted,

The Cohasset Planning Board
Albert Haberstroh, Chairman

Voted by a hand vote, that the Town vote to clarify Section 2D of the Zoning By-Law by adding thereto the following sentence:

"The demolition of a seasonal hotel and the reconstruction thereof as an apartment hotel for year-round occupancy shall be deemed to be a continuation of the previous use, provided that the height and bulk of the new building (including roofed porches, if any) shall not exceed the height and bulk of the old building (including roofed porches)."

Yes, 345; No, 83.

Voted unanimously by a voice vote at 10:50 P.M. that this meeting be dissolved.

Charles A. Marks, Town Clerk

VITAL STATISTICS

RECORDS OF BIRTHS, MARRIAGES AND DEATHS

RECORDED IN 1965

BIRTHS

Total number of births recorded was one hundred and five, of which thirteen were delayed returns and corrections of past years. Of the ninety-two born in the year 1965 all the parents were residents of Cohasset. There were forty-three males and forty-nine females.

PARENTS, BE SURE TO RECORD THE BIRTH OF YOUR CHILD WITH GIVEN NAME IN FULL.

"Parents within forty days after the birth of a child and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the Clerk of the Town where such child is born." -- General Laws, Chapter 46, Section 6.

Many times returns are made by doctors and hospitals before a child has been named. Make certain your child's name is recorded.

MARRIAGES

Total number of marriages was sixty-five, including those where both parties were non-residents of Cohasset. Forty-three marriages were solemnized in Cohasset during the current year.

DEATHS

Total number of deaths was sixty-nine, including residents of Cohasset who died elsewhere and non-residents who died in Cohasset. Of the sixty-three who were residents of Cohasset, twenty-nine were males and thirty-four were females. There was one delayed return of death, one female.

REPORT OF THE BOARD OF REGISTRARS

Number of registered voters on January 1, 1965	3533
Removed from voting list because of removal to other towns, death and marriage	<u>234</u>
	3299
Added to voting list by registration, etc.	<u>119</u>
Total number of registered voters on January 1, 1966	3418

ENROLLED TOTALS

Republicans	1563
Democrats	617
Unenrolled	1238

Any female who has married during the year must reregister in her married name as her name is automatically removed from the voting list on January 1st, following her marriage.

Any resident not listed in the Census taken by the Board of Selectmen during January and February should inform the Registrars before May 1st.

Meetings for the registration of voters are held at stated times during the year. Notices for these meetings are posted in the Post Offices of the Town and in many other public buildings. Also, residents may register by appointment with the Town Clerk.

CLARENCE M. GRASSIE,
Chairman

REPORT OF THE HIGHWAY SURVEYOR

Submitted herewith is the report of the Highway Surveyor for the year ending December 31, 1965.

The Department worked on street drainage during the winter and spring. Fifty-three catch basins were installed and 4200' of 10" and 12" pipe was laid. Two and one-half miles of Mix-in-Place was laid in various sections of Town. This work will continue.

In a period of ten years, the Department has installed 245 catch basins, laid 24,880' of drain pipe, and resurfaced 24 miles of streets.

New street signs were installed, repaired, and painted. Street painting was extended this year, and will continue.

Chapter 90 construction and maintenance funds were applied for this year. The construction funds will be used on Forest Avenue, and the maintenance money will be used on streets approved by the state for such aid.

The town will receive \$23,045.28 which has been made available by the Legislature from the proceeds of the bond issue, chapter 679 acts of 1965. Two-thirds of this money can be used this year and will be applied to Forest Avenue. Reconstruction of a 2,000' section from Forest Notch to Wheelwright Park will be advertised by the DPW in the spring.

All the articles assigned to the department were completed. In closing, I would like to recommend the town purchase a street sweeper. This machine could be used for a period of eight months, and would give the town a service which cannot be duplicated by the present system.

I wish to thank the Town Officials, the citizens of Cohasset, and the men on the Highway Department who have assisted me through the year.

LOUIS C. BAILEY, JR., Highway Surveyor

ANNUAL REPORT OF THE
SCHOOL COMMITTEE

REGULAR MEETINGS OF THE COMMITTEE

The third Monday of each month at 8:00 p.m. at the
Cohasset High School.

SUPERINTENDENT OF SCHOOLS

WILLIAM RIPLEY, Jr.

Helen Mitchell, Bookkeeper

Ruth Bacigalupo, Secretary

School Physician - Dr. Robert T. Sceery

School Nurses - Ethel Gormley, R. N.

Jean Thompson, R. N.

School Dentist - Dr. William Matteson, Jr.

1965 SCHOOL COMMITTEE REPORT

To meet the demands of coming years for more skills and knowledge, Cohasset Schools strive to educate each student to his maximum capacity. Believing high standards are supported by our citizens and ever mindful of the greater cost of excellence in education, this School Committee seeks to obtain full value for every dollar spent.

Nevertheless, it is frustrating to find that percentage increases of total expenditures continue to rise faster than pupil enrollments. Furthermore, the General Court continues to raise minimum pay for teachers (\$5000 effective September 1965) without providing tax relief for local real estate nor even adopting educational reforms recommended by the Willis-Harrington Report.

The most significant and timely change during 1965 was the approval by the Congress and President Johnson of the Elementary and Secondary Education Act known as Public Law 89-10. Thus, the Federal Government stepped in to support education at all levels, whereas, heretofore payments were made only on account of students whose

parents are employed in National Defense (PL-874) and only for certain specific subjects (Guidance, Science, Foreign Language) provided by the National Defense Education Act (PL-864).

Under Title III of PL 89-10 this committee gave approval to join the towns of Hull, Hanover, Marshfield, Plymouth-Carver, Scituate and Duxbury in a proposal seeking the creation of a regional education research and development center known as "Project Lighthouse." This South Shore Schools Systems Center could receive a grant for use in providing programs and improved educational opportunities that no one town could afford.

The projected need for additional secondary facilities for the fall of 1967 was passed on to the School Facilities Committee. Educational specifications for a separate Junior High School and additional space at the present High School were approved for further study.

After receiving reports from both the school administration and the architect, Mr. Richard Rosane, this committee approved as educationally sound and economical additions to be attached to the high school.

The ratio system of pay for teachers, adopted in the 1965 budget, went into effect in September with a minimum salary of \$5100. The relatively low turnover in overall teaching staff attests to the attractiveness of this plan which will be continued in 1966 with a minimum of \$5300.

We are sure to be joined by past members in expressing appreciation to Mr. Osborne F. Ingram for his wise guidance during 12 years as a member of this committee and our chairman for 11 years.

As ever, we are grateful to Superintendent William Ripley, Jr. for his enthusiasm, common sense and professional skill in providing the vital leadership for our schools.

SUMNER SMITH, Jr., Chairman
KATHERINE STANTON
ROBERT B. HARKNESS

LOT E. BATES
PAUL M. DONOVAN
T. GERARD KEATING

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Currently in the educational world there are many experimental programs and innovations being tried and tested. Therefore I have encouraged our staff members to become acquainted with these theories and techniques and to evaluate, adopt, and adapt those methods and materials which would best serve our needs. Staff members have attended national, regional and state institutes, workshops, and lectures during the past year. With the assistance of the South Shore Mental Health Clinic, a half day institute on Mental Health was held within this school system. In 1965 the teachers have taken a total of 54 courses in their respective fields at several institutions. Consequently I believe that our staff has shown that individually they are concerned with keeping up-to-date in today's fast moving educational world. Presently the primary school is especially interested in studying the less rigid grade line restrictions to curriculum development and organization. At Deer Hill a continued effort has been made for refining the grouping methods in the skill subjects. Through team teaching, the High School has made an attempt to revitalize the teaching of United States History. More details of these and other activities in curriculum development were presented in the revived publication of "Your Cohasset Schools" in its fall issue.

The graduating class numbering 117 was the largest in the school's history. Of these 64 entered four year colleges or universities; 7 entered two year colleges; and 14 enrolled at technical or specialized schools.

I should like to express my appreciation for the fine quality of administration provided by the principals of our schools. Mrs. O'Quin completed 9 years of able administration and leadership in the Joseph Osgood School. At her request, Mrs. O'Quin has been assigned to teach the first grade. Mr. Giuliano, principal of the Cohasset High School, deserves commendation for his energetic leadership of that school. Mr. Creamer continues to display his sound judgment with the intermediate pupils at Deer Hill. Last September Mrs. Catherine Mulcahy efficiently assumed administrative duties at the Joseph Osgood School. Also I extend

my appreciation for the years of tireless service rendered by Mrs. Elinor Kennedy who first taught elementary pupils in Cohasset in 1924. In June Mrs. Kennedy retired after many years of fine teaching.

Certainly the citizens of Cohasset owe a debt of gratitude to Mr. Osborne F. Ingram for his 11 years as Chairman of the Cohasset School Committee. When Mr. Ingram's term expired last March, he was not a candidate for re-election. Mr. Ingram's careful and conscientious guidance and advice will be missed.

It has been gratifying to work with the dedicated people who are members of the Cohasset School Committee. For their patience and understanding I am most grateful.

Respectfully submitted,

WILLIAM RIPLEY, JR.
Superintendent of Schools

STAFF DIRECTORY

JOSEPH OSGOOD SCHOOL	YEAR ELECTED
Catherine Mulcahy, Principal	1936
Ruby K. Fields, Reading Supervisor	1948
Dorothy L. Bausman, Music	1965

REPORT OF THE SCHOOL DENTIST

To the Board of Health
Cohasset, Massachusetts

Gentlemen:

The following report of dental operations at the Joseph Osgood and Deer Hill School Dental clinics is submitted for the period from January 1, 1965 to December 31, 1965.

Restorations

Silver Amalgams (with and without base)	417
Synthetic Porcelain	12
Anodyne	15
Red Copper Cement	5

Extractions

Deciduous Teeth	95
Permanent Teeth	. None
Prophylactic treatments	76
Examinations without treatment (at chair)	92

Weekly clinics at both schools functioned during the school year, augmented with chair-side instruction, lectures in the classrooms, instructional movies and film strips. We try in a small way to impart a bit of oral health instruction into the busy schedule of our modern youth, and it is gratifying to note that the general oral health of the children has vastly improved during the past twenty-five years.

I would like to express my appreciation to Mrs. Gormley and the School Staff for their many favors throughout the school year.

Respectfully submitted,

WILLIAM G. MATTESON, D.M.D.

REPORT OF THE SOUTH SHORE REGIONAL SCHOOL DISTRICT COMMITTEE

This has been a most gratifying year. June 1965 marked the end of our third school year and the graduation of our first three year class. For this class the number of job opportunities far exceeded the number of graduates and the pay offered was, therefore, higher than ever. Industry is becoming aware of the quality of our product.

In September 1965 we began our fourth school year with 246 pupils enrolled in the day school and 130 in the evening trade extension courses. The latter courses are offered to upgrade the tradesmen of the area and the program has been well received.

It is our hope that more parents will come to realize the splendid opportunities for training and placement offered by this school. The fact that many of the students come from non-regional communities indicates that neighboring towns are well aware of the school's contribution to the area. The new regional vocational schools soon to be opened in the Brockton and Canton areas are an indication of widespread public recognition of the value of vocational training.

As has been our policy in the past, the Advisory Boards and Finance Committees of all regional towns were invited to attend the School Committee budget meetings and to participate in the discussions. This has been a most effective arrangement since it allows active participation in the discussions and decisions being made.

A relatively new activity of the school which probably has not come to the attention of many residents is the re-training of chronically unemployed persons. This activity has been conducted for the Division of Employment Security and is paid for entirely by the Federal Government. A substantial benefit to the school district is the considerable amount of equipment supplied by the Federal Government. All of this equipment becomes the property of the school district when the courses are completed. This program has been most successful. During the past year, seventy persons have been enrolled in three courses. All have

finished the courses and have found steady employment.

A new activity which is being explored with the school Superintendents of the six member towns is some type of limited vocational manipulative training for the academically non-gifted students. Just what form this training will take can not be predicted at this time, but it is being given much attention both at the federal and the state level and hopefully will develop into a worthwhile project. The programs will be financed almost entirely by federal or state money.

We look forward to the years ahead, and to continued service to our youth and to our industry.

JOHN A. GEARY
Cohasset Representative
South Shore Regional School
District Committee

SCHOOL FACILITIES REPORT - 1965

During the past year the School Facilities Committee has been engaged in a study of enrollment projections, meetings with the School Building Assistance Commission and the interviewing and selection of architects.

After careful consideration of all of the school building needs and methods of solving them and having obtained the approval of the School Committee, it has been decided to recommend to the Town that additions be made to the present Junior-Senior High School on Pond Street as the best solution to the building needs at this level from an educational as well as an economical point of view. To accomplish this it will be necessary to obtain 16 acres of land adjacent to the present property.

The firm of Drummey, Rosane, Anderson, 2276 Washington Street, Newton Lower Falls, were selected as architects and engineers.

HARRY H. REED, JR., Chairman
School Facilities Committee

REPORT OF THE COHASSET INCINERATOR COMMITTEE

Chapter 599 of the Acts of 1960 was entitled as follows:

AN ACT PROVIDING FOR THE INCINERATION OF CERTAIN REFUSE AND GARBAGE COLLECTED IN THE TOWNS OF COHASSET, HINGHAM, HULL AND WEYMOUTH OR ANY TWO OR MORE CONTIGUOUS TOWNS OF SAID GROUP AND CREATING THE SOUTH SHORE INCINERATOR AUTHORITY AND DEFINING ITS POWER AND DUTIES

This was enabling legislation permitting the towns referred to therein to proceed jointly with the establishment of a South Shore Incinerator Authority if they so desired. The last section of this Act reads as follows:

"This Act shall take full effect only upon its acceptance by the Towns of Cohasset, Hingham, Hull and Weymouth, or any two or more contiguous towns of said group, by the vote of a majority of the town meeting members or voters, as the case may be, present and voting thereon at an annual or special town meeting called for the purpose in each of said towns and upon the filing of certificates of such acceptances with the State Secretary; provided, that such acceptances and filing occur before June 1, 1963."

Since this enabling legislation has expired, no such joint venture can now be entered into. Further, the developments in the several towns indicate that there is not much likelihood of a demand for renewal of such enabling legislation. Weymouth has built its own incinerator which is now in operation. Hingham has closed its old dump and has established a new dump in which the so-called sanitary land fill procedures are being followed. Hingham's Incinerator Committee has been disbanded. Hull has for the present decided to continue with its present dump. Hull's Incinerator Committee has been disbanded. Scituate, the only

other town adjoining Cohasset, is continuing the operation of its two dumps and at present has no interest in incineration.

Thus it is apparent that so long as the present procedures are continued in Hingham, Hull and Scituate, the incineration problem is not likely to arise in Cohasset.

Your Committee reminds the Town that there is on file in the Town Clerk's office a paper entitled "Report on Incineration, Cohasset and Hull" prepared in January 1962 by the Boston engineering firm of Fay, Spofford & Thorn-dike, Inc. giving an estimate of what incineration would cost should an incinerator be jointly established by Cohasset and Hull. If the incineration question should arise in the future, this report would serve as a good starting point for further investigations.

The facts outlined indicate that the Cohasset Incinerator Committee should be discharged, and the Committee so requests.

Respectfully submitted,

COHASSET INCINERATOR COMMITTEE

GIFFORD R. DEAN
CLARENCE M. FLINT
EARL R. McARTHUR
EDWARD E. TOWER
C. YARDLEY CHITTICK, Chairman

SEALER OF WEIGHTS AND MEASURES

I herewith submit my report as Sealer of Weights and Measures for the year ending December 31, 1965.

All weighing and measuring devices have been tested. One hundred and thirty two (132) were sealed and two (2) adjusted.

The amount of \$214.65 for sealing fees was collected and paid to the Town Treasurer.

BENJAMIN F. CURLEY, JR.
Sealer of Weights and Measures

REPORT OF THE TOWN TREASURER

January 1, 1965 to December 31, 1965

Balance in Treasury - January 1, 1965	\$ 356,384.74

\$150,000.00 invested in 4.08% U. S. Treasury Bills
due February 17, 1966.

DAVID E. TRUESDELL,
Treasurer

REPORT OF THE COHASSET PUBLIC SEWERAGE SYSTEM STUDY COMMITTEE

The Study Committee reports the following developments in 1965.

(1) At the Town election March 13 the voters approved, by the decisive margin of 978 to 740, acceptance of enabling legislation authorizing the Town of Cohasset to construct and operate a system or systems of sewerage and sewage disposal. (Chapter 65 of the Acts of 1962, as amended by Chapter 104 of the Acts of 1964).

(2) Detailed plans and specifications including detailed cost estimates were completed by the engineering firm of Fay, Spofford and Thorndike and delivered to the Study Committee. These plans are in accordance with previous descriptions except that the building housing pumps and control equipment is placed on Town property behind the Water Department building on Elm Street, instead of adjacent to the treatment works in Jacob's Meadow. The area covered is unchanged, with 1.3 miles of sewer mains and about 125 connections serving Cohasset village, Elm Street, Elm Court and much of the Harbor area (see 1964 map). Design of sewer main sizes and treatment plant has been carried out to provide for economical expansion of the system to include all areas of the Town, if the Town wants expansion and votes the money. Total cost of the system, including engineering supervision, contingency and land costs is now estimated to be \$484,000, but this would be subject to a reduction of \$187,000 by application for Federal grants now available. The increase in estimate above the \$405,000 figure of 1964 is due partly to rising construction costs and partly to specification of some improved equipment.

(3) Having authorized final payment to the engineers, the Study Committee gives the following recapitulation of expenditures authorized by the Town at various times for planning, investigation and reports:

\$ 1,000	under article 30, 1960 Town Meeting
500	under article 25, 1961 Town Meeting
2,000	under article 35, 1962 Town Meeting
<u>20,800</u>	under article 33, 1963 Town Meeting
\$24,300	Total expenditures authorized and made through December 31, 1965

(4) Several acts have been passed by Congress in 1965 providing grants in connection with public sewerage systems or amending previous acts to liberalize grants. The Study Committee has obtained information and ascertained that some of these grants can only be used by communities in economically distressed areas or areas of high unemployment. Cohasset does not qualify for such grants. However, public law 89-117 provides 50 per cent grants for construction of public sewerage system (excluding treatment plant) and water system facilities. From the wording of the law it appears that Cohasset would be eligible to apply for and receive such a grant. This law will be administered by the new Department of Housing and Urban Development. Eligibility requirements and application procedures have not yet been worked out at the time of writing this report. However, the Study Committee has written to the Housing and Home Finance Agency describing the status of the system planned for Cohasset and requesting information on application procedures and eligibility requirements when they are available. The Study Committee feels that a grant of this sort would be an extremely strong incentive for the Town to proceed as rapidly as possible with construction. The estimate of the cost of street sewer mains is \$224,000. A grant of 50 per cent would save the town \$112,000 of this cost. If the balance is shared in the proportion of two-thirds by the abutters and one-third by the town, as recommended by the Advisory Committee in 1964, the necessary assessment and connection fees would be very close to those described in 1964. An assessment of \$4.00 per front foot plus one cent per square foot of area to a maximum depth of 200 feet would be adequate, in conjunction with a street connection fee of approximately \$165. The average assessment for the properties served by the system recommended on this method of assessment would be \$430. The total assessment and connection fee could be amortized on a long-term basis (for example, twenty years) through arrangements that will be set up by the Sewer Commissioners.

(5) Because of the previous developments the Study Committee voted to present to the Town again in March 1966 articles providing for authorization and funds to construct the recommended sewerage system. This is essentially the same system recommended in 1964 and approved by the Advisory Committee at that time. Although the total cost is higher than in 1964, the net cost to the Town would be lower, with the Federal grant now available for construction of sewer mains. Each year of delay means an increase in construction costs until the time comes when delay is no longer possible. The cost of a well-designed new system for a four-bedroom house or repair of a difficult problem on an existing system often reaches a figure of \$1,000, and in many cases may exceed this. Such costs, as well as the cost of pumping out septic tanks and cesspools must be kept in mind in weighing the costs of a public sewerage system, which provides the only satisfactory permanent way of disposing of sewage. Approximately half of Massachusetts towns with a population between 5,000 and 10,000 have a public sewerage system. Towns with population over 10,000 have systems, virtually without exception. Hingham, Scituate, and Rockland are building public sewerage systems. Cohasset will be in a very backward and disadvantaged position in comparison with other towns of its size and other towns nearby if a start is not made soon.

(6) An addition is being planned for the Cohasset High School-Junior High School complex. The older part of the sewage disposal system at the high school has given trouble in the past, is not working properly now, and will have to be completely replaced. The newer part of the system will also have to be replaced because of location of part of the new building in its area. The Town is thus faced with construction of a large and expensive individual sewage disposal system to serve existing buildings with the new additions. If the Town approves construction of the recommended sewerage system the treatment plant would have the capacity to take care of the waste from the high school. The engineers have estimated that a line from the high school down Pleasant Street to Cushing Road, along Cushing Road and then across to Jacob's Meadow and the treatment plant could be built for approximately \$155,000, including engineering

fees and contingencies. The Study Committee is strongly of the opinion it would make much better sense for the town to start the recommended sewage system and then start immediate plans for construction as soon as possible of the line from the high school. The saving of construction cost of a very extensive system at the high school could very well offset a large part of the town's share of a sewer main from the high school to the treatment plant. Comparative cost figures will be presented at Town Meeting, with the cooperation of the School Facilities Committee.

REPORT OF THE BOARD OF PUBLIC WELFARE

The Department processed 57 applications in 1965, of which 43 were approved for assistance. A total of 121 cases were aided - 124 adults and 69 children. 86 cases are continued into 1966.

\$162,963.06 was expended in the 4 Federal participating categories; 68.8% of this amount was spent for persons 65 years of age and older. State and Federal reimbursement was 77.7% for these categories. \$4,593.49 was expended for General Relief - 20% was reimbursed by the State.

The increase in expenditure in 1965 is largely due to the advance in the cost of hospitalization and other medical services. An increase in the LTA item in the OAA program, effective 11-1-65, was the only budgetary increase.

We wish to thank Mrs. Wright, Social Worker of the Social Service League and Mrs. Lundin and her nursing staff, for their assistance in providing services to our clients.

NATHANIEL HURWITZ
HELEN E. SCRIPTURE, Chairman
GEORGE W. McLAUGHLIN

The staff of the Social Service League provided the following Nursing Services from January 1, 1965 through December 31.

<u>Recipients of:</u>	<u>New Cases</u>	<u>Total Cases</u>	<u>Visits</u>
Old Age Assistance	2	5	198
Medical Aid to the Aged	1	2	115
Aid to Dependent Children	10	10	16
Disability Assistance	1	1	<u>49</u>
Total			378

Nursing Services were recommended by the attending physician and approved by the Welfare Department.

CASEWORK REPORT

An excellent working relationship has existed between the Welfare Office and Mrs. Wright, Caseworker. Fourteen (14) cases have been carried jointly, with problems such as marital difficulties, economic strain, budgetary planning, alcoholism and personality adjustment, requiring co-operative treatment. Three (3) cases will require continued help in 1966. A joint effort was also made in determining eligible children for Operation Headstart, held in Scituate during the summer.

We are grateful to Mrs. Oliver for her understanding and constructive support in a variety of situations.

GUNHILD F. LUNDIN, R. N.
Director Nursing Service

REPORT OF THE BOARD OF WATER COMMISSIONERS

As a result of the vote of the Town meeting, authorizing a \$180,000 bond issue, your Water Department has constructed a two million gallon standpipe, in which to store water in a clean and sanitary method. This will also increase the pressure throughout the entire system.

We have also laid approximately six thousand feet of twelve inch water main along route 3-A, from King Street to Beechwood Street.

There is still a small distance to go to complete the project. This will help greatly the flow of water for fire protection, as is required by the Fire Insurance Rating Association.

The drought has caused great concern to the Water Department and a continuing search for water must be maintained.

The Water Department is greatly interested in the development of Aaron River, as a potential source of water, and feel that a request for a Chapter 91 project should be made. The greater portion of this water should be made to flow directly into Lily Pond, instead of flowing out to the ocean.

The Massachusetts Department of Public Works has made a preliminary survey of this project, and we are now waiting for the report of the survey.

The Water Commissioners will strive to make betterments and improve the system within our earning capacity.

ARTHUR CLARK, Chairman
WILLIAM POLAND
ARTHUR SOMERVILLE

REPORT OF THE LIBRARIAN OF THE PAUL PRATT MEMORIAL LIBRARY

During the year 1965 the Library Staff completed its "resettlement program" - the task of moving books, etc., and spreading out into our new addition. We found that the addition now supplies ample space for the children, an adequate reference room and study hall and a reading, browsing room for the adults. The arrangement has worked out even better than anticipated.

Various meetings and Conferences have been attended during the year - the Massachusetts Library Association at Provincetown, the New England Library Association

at Portsmouth, New Hampshire, and the Old Colony Library Association. I have also attended meetings of the Library Administrators Association of Greater Boston and kept in touch with the progress of the formation of the Eastern Region. The completion of this Regional setup has been held up by a legal formality concerning the Boston Public Library. Progress has been made, notably the ability to borrow freely from the Boston Public Library and we are confident the remaining problems will be settled shortly.

Mrs. Evelyn Wood, the Children's Librarian, has attended round table discussions at neighboring Libraries concerning Children's Books and Services. She also conducts the Children's Story Hour held each Saturday morning at 10:30.

In September we had a meeting of representatives from the Schools, School Committee and the Parent Teacher's Association with the Library Directors and Trustees. This meeting was held to discuss ways and means of obtaining better cooperation between the School faculty, Librarians and Public Librarians.

A Great Book Group meets at the Library on the first and third Thursday of each month. This Group is sponsored by the Library and conducted by Mrs. Richard A. Welch.

We have had continuous Art Exhibits throughout the year by courtesy of the South Shore Art Center and private individuals.

Statistics for the year are as follows:

New Registrations	476
Registrations withdrawn	358
Number of books added	1734
Number of books withdrawn	1718
Total volumes in Library (est.)	29,259
Adult circulation	52,360
Juvenile circulation	32,688
TOTAL	85,048

HAROLD F. BARNES, Treasurer

REPORT OF THE COHASSET CONSERVATION COMMISSION

The work of the Conservation Commission has been varied in 1965. Some of the more interesting and important activities in which we were involved are as follows:

The preservation of marshland for conservation purposes, that is, to provide a food source for our coastal fisheries, rest areas for our visiting waterfowl and other bird life, and a source of natural beauty and enjoyment to our townspeople, is one of the major concerns of the Conservation Commission. Towards this end we have been studying these areas in Cohasset with a view to making sure they remain in their natural state. The Commission was granted conservation easements through the generosity of Mrs. E. B. Boardman and Mrs. William Cox on marshland owned by them on Howard Gleason Road off Atlantic Avenue. Commission members have talked with other owners of marshland in the vicinity and it is probable that additional conservation easements will be granted here in the near future. Under an easement of this type, the owner retains possession of the property but agrees to restrict its use so that there will be no change in the natural state of the land by filling, excavating or dumping and that no building or structure will be erected on it. Mr. Charles L. Smith was made an associate member of the Commission in 1965. He will be primarily concerned with working with other members of the Commission to acquire or control by easement marshland in the Gulf area. Our Commission is working closely with the Scituate Conservation Commission in this area of mutual interest.

The Commission was responsible for having the Norfolk County Conservation District make a survey of Ellms Meadow, an area of eleven acres off Spring Street and Cushing Road consisting of wooded land and a small pond, as well as meadow. The purpose of the survey was to determine what steps could be taken to improve the area from a conservation and recreation point of view without disturbing the activities of the Water Department, which has jurisdiction over the land. An excellent report was received from the Conservation District, at no cost to the town, in

which suggestions and recommendations were made to achieve the desired results. A meeting will be held early in 1966 with interested town committees and private groups participating to plan a definite program to carry out the recommendations given in the report.

The Commission continued to work closely with the Board of Selectmen to see that the Zoning Bylaw (Section 4 Paragraph E) which concerns filling of marshlands, etc., was enforced. For the most part, persons undertaking filling activity, so informed by the Selectmen, made application for a permit to the Board of Appeals and in every case a permit was granted. It is interesting to note that at some hearings before the Board of Appeals information was brought out that was of real benefit to the applicant by way of a better understanding of how drainage should be handled on his land and what the effect of what he was doing, in regard to filling, had on the adjoining land.

Members of the Commission have attended meetings of other town committees during the year and plan to do this on a regular basis in the coming year. We think that there is not enough exchange of ideas between the various official groups within the town government system in Cohasset and hope that the extra time Commission members spend on this will be rewarding.

A project we started in 1965 and plan to devote more time to in coming years is to work closely with the Cohasset Schools to help interest our young people in conservation. Interesting speakers at school assemblies, encouraging conservation projects at the Science Fair, providing the school librarian with books and descriptive material on conservation, and making use of our "natural laboratories" such as could exist at Ellms Meadow and other areas in town, are some of the ways of accomplishing this goal.

We are sorry to report the resignation in 1965 of two members of the Commission, Mrs. Richardson White and Mr. Robert Kilmarx. Both contributed a great deal to the accomplishments of the Commission as a whole and their loss will be felt for a long time to come.

EDWARD F. WOODS
ROSCOE E. SHERBROOKE
GEORGE W. BENEDICT
JOHN F. HUBBARD, Chairman

SOUTH SHORE MOSQUITO CONTROL PROJECT

To the Citizens of the Town of Cohasset:

Submitted herewith is the report of the South Shore Mosquito Control Project's activities in the Town of Cohasset for the year ending October 31, 1965.

The Town of Cohasset appropriated \$4200 for mosquito control in 1965. Along with this \$800 was appropriated for salt marsh maintenance. This was used for mosquito control in the Town of Cohasset by the South Shore Mosquito Control Project, a cooperative effort under General Laws, Chapter 252, embracing the City of Quincy and the Towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth, a total of 172.21 square miles, servicing a population of over 222,824.

The project operates year round, continuing to base its operations on a three phase program; Permanent Control, the elimination of mosquito breeding sites by proper water management; Preventive Control, the elimination of mosquito larvae by spraying or dusting breeding sites; Adult Control, the elimination of the flying mosquitoes by space spraying or fogging.

With this as the basic plan the following was accomplished in the Town of Cohasset this year.

PERMANENT CONTROL

2300 feet of drainage were reclaimed and 300 feet of new drainage ditch were trenched to reduce water from becoming stagnant enough to produce mosquitoes.

PREVENTIVE CONTROL

275 acres of small isolated woodland swamp were pre-hatch treated with dust upon ice in winter months to prevent the development of the mosquito eggs. 1053 acres of larger swamp areas were larval treated in the spring of the year by air from a helicopter aircraft to control mosquitoes of the early season.

During the summer season many wet areas had to be checked for their larval and pupal content. Areas like the salt marsh had to be rechecked as much as three and four times. Wherever mosquito larvae and pupae were found the conditions were remedied by spraying or removing the water container. 611 gallons of insecticide were applied for this larval/pupal control.

Catchbasins, a source of a great number of mosquito larvae, may have to be treated as often as three times a season, depending on wet or dry season. It was necessary to treat 150 basins in the Town of Cohasset this year.

ADULT CONTROL

Spray for adult mosquitoes becomes necessary when complaints are received of large numbers of mosquitoes moving into an area. These mosquitoes usually migrate from uncontrolled areas outside of the project's boundaries, or come from man-created conditions around homes where any type of container containing water will breed the culex or house mosquito. The project received 1027 calls last season. Action in some form was taken on all.

In the Town of Cohasset 1187 gallons of insecticide were space sprayed for adult mosquitoes with hydraulic sprayer and mist blower.

When weather and other conditions were favorable an insecticidal thermal fogger was used. 15 gallons of insecticide and oil in a fog were applied at the rate of 4-1/2 gallons to the acre in the Town of Cohasset.

INSECTICIDES

The insecticides used by the South Shore Mosquito Control Project are:

- DDT Dust
- DDT Emulsions
- Malathion Emulsion
- Malathion Miscible in oil, fog
- DiBrom 14 in oil, fog
- Baytex Emulsions, catchbasins
- #2 Oil

All insecticides are registered and are labelled for use in mosquito control. They are formulated and applied in accord with and at no greater amounts than their labels recommend to be proper for mosquito control operations.

The project wishes to acknowledge the help received from officials and departments of the towns and city and sincerely hopes that benefits derived by these departments as a result of this cooperation are as great as those derived by the project.

The main purpose of this project is to "Control." This means to prevent large populations of mosquitoes from emerging from their breeding sites to infest communities, not by any means to completely eradicate the mosquitoes. Yet the number of calls received by the project this past season (1027) a comparatively low breeding year, would indicate that many of the townspeople by their calls have either lost sight of this fact or do not understand the functions of a control project.

Many of the calls were for a personalized type of backyard adult spray or a routine type neighborhood spray where no great mosquito problem exists. This type of operation is wrong for many reasons, a few being:

It is wasteful in both material and labor,
it takes personnel away from more practical work,
and most important, the unnecessary use of insecticides can endanger the environment.

In the future request calls shall be more scrutinized. Before insecticides are to be used there shall be a mosquito problem.

REPORT OF TREE WARDEN - 1965

Care of the shade trees of the town this past year was carried on in a routine manner. Several trees in a dangerous condition were cut down as a safety measure. Roadside brush was cleared in several areas, particularly Pond Street, to promote safety. Considerable pruning of

large trees was done with the help of a Skyworker. The Brockton Edison Company cooperated in clearing deadwood and overhanging branches over wires.

Eighteen (18) trees were planted in various places about town where needed. Vandalism has made it necessary to replant trees in several places.

Continued drought has made it necessary to water newly planted trees to keep them alive and has damaged large trees growing under unfavorable conditions.

The Public Shade Trees of the town are now in fairly good condition, but many are in danger of damage by soil compaction caused by parking of cars. Curbing, especially on Elm Street, would make it possible to plant more young trees.

With thanks to all officials and citizens who by their comments have assisted me in my work.

Respectfully submitted,

HOWARD BATES, Tree Warden

REPORT OF MOTHS SUPERINTENDENT - 1965

Insect damage and Dutch Elm Disease have been comparatively light this past year.

Cankerworms again appeared in the Forest Avenue-Golf Club area, but use of the Mist Blower only was necessary to control them.

Elms were sprayed with Thiordan and Aramite to control elm leaf beetles, aphids, and mites with very good results.

Cankerworms and other chewing and noxious pests were very well controlled by the use of Sevin, a new and comparatively safe insecticide.

POISON IVY CONTROL

Poison Ivy Control was continued with the use of Esteron Brush Killer, and very little Poison Ivy is to be found in exposed places.

DUTCH ELM DISEASE

Methoxychlor, a comparatively safe insecticide to humans and wildlife, was used as a dormant spray to all elm trees that could be reached by truck.

The continued program for Dutch Elm Disease Control, consisting of a dormant spray and a sanitation program has cut D. E. D. losses to the lowest point in years, 36. Only seven (7) of these could be considered public shade trees, and none were found on the Common or on adjacent streets.

All free falling diseased trees have been cut, and the remaining 18 to be topped will be removed by early spring. All citizens noticing sudden wilting or yellowing of elm leaves in June and July, the symptoms of Dutch Elm Disease, are urged to call the Moth Superintendent.

Respectfully submitted,

HOWARD BATES
Moth Superintendent

CIVIL DEFENSE REPORT

I herewith submit the Civil Defense Report for the year ending December 31, 1965.

The additional 200 bed hospital is now complete. This gives the Town a 400 bed hospital complete with emergency medical supplies.

All medical supplies were inventoried, replaced and added to where necessary.

The Town warning system was inspected periodically during the year. One new radio (receiver-transmitter) was added to our communications system.

Regular monthly radio drills are held in conjunction with Sector 2D Headquarters.

The two exercises conducted statewide to test the ability of local communities to receive a warning notice were received over the teletype facilities in our Police Headquarters allowing us to reply promptly to them. These messages also are received over a receiver located in the Fire Station and are broadcast by the State Police.

These methods of communication and the radios we have, we believe, give us a good communication coverage.

Lists of all doctors and nurses who live in the Town are currently being up-dated.

Program papers and staffing reports have been prepared, filed and approved as required.

It is expected that a course for school teachers will be held early in 1966 at the Bridgewater State College in "Personal and Family Survival". This will be a 15 hour course. Those completing the course will be entitled to serve as an Instructor in their local communities.

HARRY H. REED, JR., Director

REPORT OF POLICE DEPARTMENT

I wish to express the department's and my personal appreciation to you, and all civic organizations for your support during the past year.

We are deeply indebted to the residents of Cohasset for their continuing acceptance of fair, impartial and courteous enforcement of the laws, and the respect shown the police officers by the citizens generally is indeed gratifying.

The assistance and cooperation of the press, all town departments and other municipal, county, state and federal law enforcement agencies has contributed materially to our operation.

The 1965 Annual Report of the police department is herewith submitted. The last quarter of 1965 already indicates that we will continue to have challenges in our efforts to apply a high level of service and protection to the citizens.

As Chief of Police for the Town of Cohasset, I have the honor to present, in compliance with provisions of Article 3, Section 3 of the By-Laws, a report of the Cohasset Police Department for the year ending December 31, 1965.

MISCELLANEOUS VEHICLES

TYPE OF VEHICLE	DEPARTMENT USE	MAKE	YEAR
Four door Sedan	Chief's Car	Oldsmobile	1962
Panel Truck	Lighting Truck	Ford	1953

The motorized equipment is generally in good condition and capable of performing the work required of it. During the year routine maintenance such as changing oil and greasing was done by the men on duty.

To continue the useful life of Engine 3 it is necessary to rebuild the motor and replace the now leaking water tank. Upon completion of this work it should be capable of several more years of service. This course of action seems to me to be more sensible and economical than early replacement.

PERSONNEL

There are presently employed sixteen permanent officers and firefighters in the Fire Department. These men are divided into three work groups, each commanded by an officer and working 56 hours per week. The manpower on these three groups is then divided again and assigned to Fire Headquarters, North Cohasset and Beechwood.

HEADQUARTERS	GROUP 1	GROUP 2	GROUP 3
Engine 1	R. P. Oliver	W.C. Wheelwright, Jr.	J. F. Thompson
Engine 4	P. A. Grassie	R. M. Conley	F. N. Edwards

Ladder 1	C.J. O'Brien	G.E. Casey	T.W.Hernan, Jr.
Relief Man	- - - - -	W.L.Nickerson	- - - - -
Fire Alarm Operator	- - - - -	- - - - -	- - - - -

NORTH COHASSET

Engine 2	D.R. Marks	E.J. Sullivan	A.E. Studley
----------	------------	---------------	--------------

BEECHWOOD

Engine 3	R.J.Henn	R. Perroncello	F.S.Wheelwright
----------	----------	----------------	-----------------

It should be noted that there is a lack of personnel to fill out the table of organization listed above. The requirements above are the extreme minimum for safe and efficient operation. It should be remembered that the Fire Department provides service 24 hours a day -- 365 days in the year. The purpose of the relief man would be to cover vacancies that occur due to vacation, illness, and injury and still allow for proper manning. The Fire Alarm Operator would maintain coverage of the telephone, radio and fire alarm equipment during simultaneous or multiple alarms and make certain that Mutual Aid is available for covering our stations.

Call officers and call firefighters are assigned to the various companies as follows:

HEADQUARTERS

Engine 1	E.J. Antoine W.E. Poland J.A. Silvia B.W. Pratt	C.W. Frates E.H. Pratt R.L. Yocum	T.M. Healy, Jr. R.W. Rosano R.P. Grassie

BEECHWOOD

Engine 3	D. F. Ainslie	J. J. DelSasso	D. L. Kelley
	H. E. Marsh	D. Souther	M. H. Stevens
	S. B. Taylor	V. E. Tibbetts	L. L. Davis

A call firefighter upon the sounding of an alarm leaves his work or home and responds to the fire -- this call may come at any time of the day or night. The spirit of helping someone in need is paramount in their mind and for this reason they deserve the thanks and appreciation of the townspeople. The rate of compensation is not great but the risks involved are -- their dedication and devotion to duty are to be commended.

STATIONS AND EQUIPMENT

The three fire stations of the department required some maintenance work. Naturally the Headquarters building being new did not require much more than very minor repair and adjustment. It is a pleasant feeling to have people come from other communities to survey this facility and comment on its beauty and practicability. The officers and firefighters of the department maintain not only the interior of the fire department's portion of the building but also the exterior and grounds. All the lawns and shrubbery were trimmed and fertilized and all the grass area treated with weed killer and top dressed.

The driveway aprons at the North Cohasset Fire Station and the Beechwood Fire Station were rebuilt by the Highway Department with paving material.

The foundation and sills at the rear of the North Cohasset Fire Station and Post Office were repaired and put in good order, this work was done under the jurisdiction of the Board of Selectmen.

The hundreds of tools of the department both large and small were checked continually and necessary repairs and adjustments made. The greatest portion of this work being done by the firefighters. Replacements for damaged and overage hose were made, to maintain hose that is capable of service it is necessary to make continual replacement of over age hose. This discarded hose is available for use at the dump, and by the water and highway departments.

GENERAL

All permanent officers and men, plus a group of call firefighters attended and were certified by the American Red Cross in Advanced First Aid. Firefighter Richard M. Conley attended and was certified as an instructor by the American Red Cross, this will allow the department to have refresher courses and training within its own ranks.

The results of the survey conducted in 1964 by The New England Fire Insurance Rating Association have not yet been finalized. They are awaiting completion of the improvements to the water distribution system currently under way. When this work is complete fire flow tests will be run and the results computed. This information will then be presented along with their findings and recommendations.

A continuing training program is underway within the department. Review of the basic evolutions and studying and trying out new practices is necessary to keep abreast with the changing times. Again, this year, several members at their own expense attended the Fire Training School conducted by the New Hampshire Fire Chiefs' Club.

All citizens of the Town are urged to obtain a permit for fires in the open. This is required by the General Laws of the Commonwealth, and may be obtained by calling Fire Headquarters each day an open air fire is desired.

The past year has been the driest in many, many years and the fact that the Fire Department responded to fewer grass and brush fires under these extreme conditions is testimony to the results obtained by the citizens of Cohasset cooperating and using care in burning in the open. In 1965 the Fire Department issued 1,496 such permits.

RECOMMENDATIONS

The following recommendations are for your serious consideration.

1. the addition of at least two permanent firefighters to the department to allow the department to function at a safe and efficient minimum strength.
2. to consider the adoption of a By-Law requiring the installation of a fire detection system in new dwelling construction and the installation of sprinklers in mercantile buildings with large open floor space.

APPRECIATION

In the year 1965 two members of the department who had long and faithful service as Call Firefighters passed on.

Mr. Louis E. Salvador, assigned to Engine 1 and
Mr. Bernard J. Salvador, assigned to Engine 1

In concluding this report I would like to extend to the citizens of Cohasset, the Honorable Board of Selectmen, the heads and members of all Town Departments and Committees my sincere thanks and appreciation for their cooperation and assistance.

I would also like to thank the officers and men of the Fire Department for their understanding, cooperation and assistance. Without these things it would be difficult to carry out the activities of the department.

Respectfully submitted,

CHARLES PIEPENBRINK
Chief of Fire Department

GORDON E. FLINT, Town Collector

TOWN ACCOUNTANT'S REPORT

I herewith submit my annual report in accordance with Section 61 of Chapter 41 of the Tercentenary Edition of the General Laws, for the year ending December 31, 1965, showing in detail the appropriations, expenditures, and the receipts from each source of income. Also a recapitulation sheet and a balance sheet showing the assets and liabilities and trust accounts.

In accordance with Section 57 of Chapter 41 of the Tercentenary Edition of the General Laws, you will find a detailed report of the Town's Debt which amounts to \$1,584,000.00 with the amount of interest due in 1966 of \$39,086.25 and principal of \$166,000.00.

The records of permits and licenses issued by the Selectmen and other departments, receiving money for the Town or committing bills for collection were examined and checked, the reported payments to the Town Collector and Town Treasurer being compared with the Treasurer's recorded receipts, also the Savings bank books and securities representing the investment of the several trust funds in the custody of the Town Treasurer.

During the year, the Treasurer's cash balance was proved by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash in the office.

A complete audit of the books and accounts of the Cohasset Water Department was made, the outstanding accounts were listed and proved with the respective accounts.

In closing, I wish to take this opportunity to thank all departments for their sincere cooperation this past year.

MALCOLM H. STEVENS, Town Accountant

TRUST FUNDS IN CUSTODY OF TOWN TREASURER
AS OF JANUARY 1, 1966.

PARKS AND PLAYGROUNDS

Arthur N. Milliken Recreation Fund:

On hand, January 1, 1965	\$82.98
Dividends received during 1965	<u>3.53</u>

On hand, January 1, 1966	\$86.51
--------------------------	---------

Robert Charles Billings Fund:

On hand, January 1, 1965	\$1,150.00
Dividends received during 1965	<u>48.88</u>
	\$1,198.88

Received by the Town in 1965 and credited to parks and Playgrounds - Salaries and Wages Account	<u>48.88</u>
--	--------------

On hand, January 1, 1966	\$1,150.00
--------------------------	------------

Billings-Pratt Park Fund:

On hand, January 1, 1965	\$1,000.00
Dividends received during 1965	<u>42.50</u>
	\$1,042.50

Received by the Town in 1965 and credited to Parks and Playgrounds - Salaries and Wages Account	<u>42.50</u>
--	--------------

On hand, January 1, 1966	\$1,000.00
--------------------------	------------

H. W. Wadleigh Park Fund:

On hand, January 1, 1965	\$5,000.00
Dividends received during 1965	<u>212.50</u>
	\$5,212.50

Received by the Town in 1965 and credited to Wadleigh Park Trust Fund Income Account	<u>212.50</u>
---	---------------

On hand, January 1, 1966	\$5,000.00
--------------------------	------------

Wheelwright Park Fund:

On hand, January 1, 1965	\$15,000.00
Dividends received during 1965	<u>637.50</u>
	\$15,637.50

Received by the Town in 1965 and credited to Wheelwright Park Trust Fund Income Account	<u>637.50</u>
--	---------------

On hand, January 1, 1966	\$15,000.00
--------------------------	-------------

Edith M. Bates Fund:

On hand, January 1, 1965	\$1,781.29
Dividends received during 1965	<u>76.51</u>
On hand, January 1, 1966	<u>\$1,857.80</u>

SCHOOLS

Ripley Fund:

On hand, January 1, 1965	\$1,297.32
Dividends received during 1965	<u>55.67</u>
	\$1,352.99
Received by the Town in 1965 and credited to Ripley Fund Income Account	<u>310.08</u>
On hand, January 1, 1966	<u>\$1,042.91</u>

James W. Nichols School Prize Fund:

On hand, January 1, 1965	\$2,563.77
Dividends received during 1965	<u>109.03</u>
	\$2,672.80
Received by the Town in 1964 and credited to James W. Nichols School Prize Trust Fund Income Account	<u>50.00</u>
On hand, January 1, 1966	<u>\$2,622.80</u>

Major William Arthur Scholarship Fund:

On hand, January 1, 1965	\$6,586.71
Dividends received during 1965	<u>276.50</u>
Received by the Town during 1965 and credited to Major William Arthur Scholarship Trust Fund Income Account	<u>\$6,863.21</u>
	300.00
On hand, January 1, 1966	<u>\$6,563.21</u>

Lawrence Public School Fund:

On hand, January 1, 1965	\$641.63

REPORT OF THE BOARD OF SELECTMEN

With the exception of a part of the sidewalk on Sohier Street, and the new floats at Government Island, the instructions of the Town as set forth in the votes of the March Meeting have been carried out by the Board of Selectmen.

It has been determined by Town Counsel that the completion of the Sohier Street project will require a formal plan and layout, which will involve a further Town Meeting vote. It was found that additional money would be required for the construction of the floats desired. This additional amount has been made available by action of the Advisory Committee, and the work will be completed before spring.

Engineering studies of the Aaron River have been made, and the Board is awaiting a report on the results of the studies from the Department of Waterways. Senator Weeks and Representative Gates have continued to work closely with the Board on this matter, as have the Aaron River Committee and the Water Commissioners.

Final approval of the Harbor Dredging Project was received from the Federal Government during the year. The Town has notified the Federal Government that funds are available for its share of the estimated work. The share to be met by the Commonwealth was not voted in the 1966 budget as passed by the legislature. The Board has been advised by the Department of Public Works that the indications are favorable for the passage of this budget item in the upcoming legislative year.

The status of the Hingham Ammunition Depot Annex continues unchanged.

During the year, repairs to the Town Clock were completed by Mr. Danforth Lincoln, Mr. Arnold Weeks, and Mr. Prescott Cumner, who acted both as committee and as workers in completing the work.

The Board is especially appreciative of such cooperative efforts from our townspeople, which matches the high calibre of effort and performance that has been enjoyed throughout the Town Departments.

Respectfully submitted,

GEORGE W. McLAUGHLIN, Chairman

NATHANIEL HURWITZ

HELEN E. SCRIPTURE

REPORT OF THE AARON RIVER COMMITTEE

Honorable Board of Selectmen:

Through the efforts of the Board of Selectmen and others, a profile and location study of the Aaron River was made available by the Massachusetts Department of Public Works, Waterways Division for our review on 21 January 1966. After discussion with the Cohasset Water Commissioners, it was resolved that a Chapter 91 stream clearance project to eliminate flooding would lower the stream flow line so that the proposed water diversion at the Pumping Station for water supply storage would be both difficult and expensive. Since a drainage study is being requested by the Water Commissioners through Federal assistance, it was concluded that the results of this further study should be available before any master plan for the utilization of Aaron River for water supply is made.

So that flooding problems on Aaron River may be relieved, an article is being presented at this 1966 Town Meeting to request an appropriation to clean, repair and otherwise improve the stream flow to its original state without significantly changing the stream location or flow line at this time.

Respectfully submitted,

AARON RIVER COMMITTEE

GEORGE E. HALEY

STEWART S. SARGENT

ROBERT C. BRIGGS, Chairman

REPORT OF THE BOARD OF HEALTH

PERSONNEL

Anthony W. Vento: Health Agent and Milk Inspector
William Matteson, Jr., D.M.D.: School Dentist
Freddie Peterson, M.D.: Pediatrician, Well Baby and well
Child Conference
Matthew Carr, D.V.M.: Inspector of Animals and Slaughtering
Mrs. G. F. Lundin, R. N., and Mrs. M. Medeiros, R.N.:
Public Health Nursing Services by contract with the
Social Service League
Edwin H. Pratt and Charles T. Patroli: Plumbing Inspectors
Manual P. Silvia: Superintendent of Town Disposal Area

An urgent personnel need was filled when the position of Health Agent was converted in 1965 from a part-time (three days per week) to a full-time basis. Because of the irregular nature of much of the field investigation and inspection this has resulted in quicker, more effective work in connection with nuisance complaints and installation of sewage disposal systems. The increased time available to the Agent also permits an improved public health program in many areas and a better control of expenses and departmental operations. The Board expresses its grateful recognition for loyal and efficient services rendered in 1965 by its Health Agent, Mr. Vento, and all other personnel.

SOIL INVENTORY REPORT

A 67 page report was prepared by the Soil Conservation Service, U.S. Department of Agriculture and delivered to the Town in July 1965, with accompanying maps. The report was based on aerial photographs, existing maps, field surveys, test borings, and numerous soil analyses. The first section of the report, "General Soil Areas," provides information suitable for broad, overall planning purposes as a zoning guide. The section, "Soil Interpretations for Specific Land Uses" furnishes a map and description of the limitations of soils in the Town for the following uses: sewage disposal commercial and industrial sites, home sites, athletic fields, wetland wildlife sites, sources of sand and gravel, roads,

woodlands, relation of soils to surface runoff, and land slope characteristics. The third section is entitled "Description of Soils and Land Types," and this is supplemented by a technical appendix. Under the sponsorship of the Conservation Commission a public meeting was held at Town Hall on September 8, 1965, at which the report was described and town officials and citizens had an opportunity to question Mr. Ritzer, Soil Conservationist, and Mr. Upham, Senior Soil Scientist, who prepared the report. Copies have been distributed to interested Town Departments and to the League of Women Voters, whose interest and activity stimulated the preparation of Article 30 in the 1964 Town Meeting. The cost of the report was \$1200, which is a small fraction of the cost to the town if equivalent work had been done by a private engineering firm. Extremely valuable reference material has thus been made available to all Town Departments concerned in any way with land use. The Board of Health Purchased a limited number of extra copies of the report which may be obtained from the Health Agent at \$2 per copy, the procurement cost.

From the standpoint of the Board of Health the most important finding of the report was the extremely small amount of unbuilt land remaining in town that does not have severe limitations (impermeable soil, high water table, bedrock close to surface, or excessive slope) for individual sewage disposal. Of the land classified, 6490 acres had moderate or severe limitations, and only 44 acres, or 0.7%, were generally suitable for this purpose on the basis of the general residential zoning for 20,000-square-foot lots.

SUMMARY, CONFIRMED SEWAGE SYSTEM FAILURES, 1960-1965

Because nuisances, pollution and resulting dangers to health constitute the most important public health problem for the Town of Cohasset, the Board of Health has reviewed its records of investigation of sewage disposal nuisances during the period of 1960-1965.

Confirmed failures of sewage disposal systems are summarized in the table below, but it should be emphasized that the total figure underestimates the true figure by a considerable margin. This is due to omission of second or third

failures of a system of the same property, correction of nuisances by pumping out cesspools or septic tanks before any complaint is made, and pollution problems that undoubtedly exist without being detected.

During 1960-1965 it is reasonable to estimate that one property out of every three or four experienced a disposal system failure in the area east of Route 3A, rather than one out of six or seven as shown in the Table. Although there is a concentration of very difficult problems in the center of town and the harbor area, the distribution of sewage complaints verified by investigation is suprisingly uniform over the built-upon areas of town.

The Board is more strongly convinced than ever that the only satisfactory solution for Cohasset is a public sewerage system and supports the concept of orderly expansion of the plan to be presented at town meeting, especially to include all our schools at as early a date as practical.

Neighborhood *	Number of Dwelling Units *	Number of Disposal System Failures 1960-65	Ratio
----------------	----------------------------	--	-------

(Area to east and north of 3A)+

I North Area	355	59	1/6
II Central Area	819	119	1/7
III South Area	329	49	1/7
(Area to west of 3A)			
IV Beechwood and King St. Area	198	17	1/11
V Whitney Woods Area	9	0	---
VI Naval Annex	<u>0</u>	<u>0</u>	<u>---</u>
Total	1701	244	1/7

* As given in Summary Report on Long-Range General Plan for Cohasset, December 1961 ("Benjamin Report"), pp12-14.

+ Boundary between north and central area is a line running from Sanctuary Pond to intersection of Jerusalem Road and Atlantic Avenue. Boundary between central and south area runs along Pond from 3A, across Jacob's Meadow to the Harbor.

SEWAGE DISPOSAL PERMITS NUISANCE COMPLAINTS

New Construction	43	Sewage overflow	83

Total visits made	375	Miscellaneous	26
		Total No. of cases	164
		Total No. of visits	245

There were twenty dye tests conducted of which eleven were positive.

Total number of conferences on sewage disposal problems - 415.

TOWN DUMP DISPOSAL AREA

Hours: 8:30 a.m. to 5:30 p.m., daily except Monday and Holidays.

The disposal area has been maintained in a sanitary condition under the efficient operation of the Superintendent. An extension of the fence has been accomplished within the past year, near the dumping area and also at the main gate. The well area has been cleaned out and repacked as recommended by the Fire Chief and Water Superintendent, as a measure to increase and maintain our water supply for fire protection. We did have water from the well throughout the summer in spite of the exceptional drought.

As you know, the disposal area is constantly expanding. Expansion means more gravel, which is expensive, more work and care by the superintendent, and more supervision by the Board of Health. The Board is constantly striving to maintain the disposal area in a sanitary condition and also improve this area to the limit that the budget will allow.

At this time, we would like to ask for the cooperation of the townspeople to place their garbage in the containers provided, to dump over the edge when possible or as close to the edge as possible, and to properly secure their trash in their vehicle on the way to the disposal area. Your cooperation will be appreciated.

A Measles Vaccine Clinic authorized by the Board of Health, and sponsored by the Social Service League, was held in March. Measle vaccine inoculations are now included in the immunization program at the Well Baby Clinic.

CASEWORK REPORT

Mrs. Frances Wright, Social Service League

Five cases were carried over from 1964, and four of them are still active. In addition, six other Board of Health cases received attention, although only three were opened cases. Three of the eight carried over and newly opened cases have required intensive help, and will continue to need it; four are still open for occasional minor service, and one has been closed.

DENTAL CLINIC

A report of the Dental Clinic, sponsored by the Board of Health, will be found in the report of the School Department.

RICHARD B. SINGER, M.D., Chairman

RENE G. CHIASSON, Secretary

EDWARD A. McCARTHY, M.D., Member

REPORT OF THE WIRE SUPERINTENDENT

To the Honorable Board of Selectmen:

The following is the annual report of the Wire Department for the year 1965:

WIRE INSPECTION

Wire inspection fees and wiring permits were filed with the Town Accountant and Town Treasurer.

The Commonwealth of Massachusetts has adopted a new Massachusetts Electrical Code made up by the Department of Public Safety--Board of Fire Prevention. This new code replaces the old National Code. All Electrical Contractors performing wiring and repairs are governed by this code in every Town and City in Massachusetts.

ELECTRICAL INSTALLATIONS AND REPAIRS

All repairs and new work to Town owned buildings were done by this department. Considerable new wiring installations were done for the Water Department at Station #4 in connection with the new two million gallon Water Tank and new safety devices were installed.

FIRE ALARM AND TRAFFIC SIGNALS

Five miles of new overhead Fire Alarm wire was installed and two new Fire Boxes. Many miles of overhead wire was repaired due to severe storms. New cross arms and hardware were installed to replace worn out old ones.

All Fire Alarm Boxes and Traffic Signal Standards were painted. All Traffic signals were kept in good repair.

I wish to express my thanks to the Honorable Board of Selectmen--all Town Officials, and to the men who worked with me.

Respectfully yours,

EDWARD P. MALLEY

Superintendent of Wires

REPORT OF THE PLANNING BOARD

The report of the Planning Board for 1965 is hereby submitted.

The pressures of the expanding metropolitan area continue to be felt by the Town of Cohasset. These pressures are caused by the saturation of residential land close to the urban area and by improved highway transportation facilities from the suburbs to the urban center. To add to this pressure, the plans are now firm for an MBTA rapid transit extension as far as Hingham. Many more new people will plan to move to South Shore communities.

Cohasset at such a time finds itself with a zoning bylaw which allows 20,000 sq. ft. lots throughout most of the town and is the only town for miles around that is zoned so loosely. It finds itself with crowded schools but with no land reserved for future school sites. Such sites have been recommended annually since the Benjamin Report of 1961. It finds itself with a serious water supply problem which can only be solved by capturing and storing more surface water. But as the number of houses and cesspools increase the area from which suitable water can be collected is reduced.

It is because of these conditions that the proposed Zoning Bylaw was presented to the Special Town Meeting for action on November ninth. It was the fateful night of the Great Blackout of the Northeast and because so many voters stayed away we think the town should vote again. The Planning Board is therefore presenting the identical bylaw for action at the forthcoming Annual Town Meeting in March. Your only hope of controlling the growth of the town and the tax rate is to adopt this proposed bylaw.

And while the Town is considering zoning bylaws the creation of new building lots goes on unabated. During the year three subdivisions were approved under the Subdivision Control Law containing a total of 93 lots. Twenty of these were at Forest Ave. and North Main St., twenty more on a new road off Brewster Rd. in the Ledgewood Estates, and fifty-three on Fair Oaks Lane off Sohier St. As this is being written a preliminary plan for 102 houses on 12,000 sq. ft. lots has been proposed in Beechwood. This development

alone can put 200 more children in our schools.

Thirty more lots were created during the year by dividing land that had frontage on existing streets. This means that the spaces between houses is growing smaller and that our town is rapidly losing the look of a sprawling country town which is the very thing that makes it so attractive. The need for a properly restrictive zoning bylaw cannot be overstressed.

Again the Planning Board acknowledges with gratitude the services of the men on its Zoning Advisory Committee, namely: Donald J. Evans, Louis F. Eaton, Jr., Roger B. Coulter, David E. Place, and Raymond G. Buckley. We also wish to thank the other boards and officers of the town for their continued support and cooperation.

Very truly yours,

ALBERT HABERSTROH, Chairman

Cohasset Planning Board

REPORT OF THE PERSONNEL COMMITTEE

The Committee has met regularly on the second Thursday of each month to attend Personnel needs.

Committee recommendations to the Town Meeting of March 1965 proposed the Town to give a 4% pay increase to regular full time hired employees, and further to increase the allowable paid sick leave from 90 to 120 days. The townspeople approved of these recommendations by vote.

At the end of 1964 the pay grade of most of Cohasset's employees was slightly above the average of the surrounding towns. (Hull, Hingham, Scituate, Weymouth, Rockland, Norwell, Hanover, and Marshfield.)

It is the hope of this Committee that the above indicated 4% raise will be sufficient to allow Cohasset to retain its reasonable pay position.

We thank all townspeople for their cooperation in operations of this Committee.

Respectfully submitted,

G.G. CROCKER

R. W. JAMES

R. D. SARNELL

NO SCHOOL Signal, on Fire Alarm — 1-2-2

SURVIVAL INSURANCE

BE PREPARED — Know the warning signals. Check your emergency supplies. Decide where you would take cover: (1) In your cellar? or (2) in the excellent public shelters now available in the Cohasset area of the Navy Ammunition Depot. Enter by Doane St. from Beechwood or by Howe Road, opposite west end of Sohler St.

THE TAKE COVER SIGNAL — On the sirens an up and down wailing. On the fire horns short blasts for 3 minutes.

ALERT SIGNAL — If time permits which is very unlikely, on the sirens the high note held steadily. On the horns a sustained blast.

KEEP EMERGENCY SUPPLIES — 1. Non perishable foods. 2. Water in covered containers. 3. Battery powered radio. 4. Flashlight, lantern, camp stove, 5. In your car keep your gas tank at least half filled.

HURRICANE — Fasten your house shutters. Stay away from windows. Do not touch fallen wires. Telephone only necessary emergency calls.

FLOODS — Remove motors and valuables to upper floors. Shut off electricity at main switch before evacuating.

TORNADO — If at home: Take refuge in cellar of strongest house nearby, and lie on face under table or other strong piece of furniture, in corner toward approaching storm. If no cellar, lie under strong piece of furniture against inside wall.

If in open: Proceed at right angles to path of storm. If there is no time to escape storm's path, lie face down in ditch or other depression.
